

Dear Friends of Mercy Clinic,

It's been an amazing year at Mercy Clinic, many lives have been changed through the clinic's free medical, dental, and spiritual care services. Nowhere else in South Fort Worth can over 1500 adults without insurance receive 100% FREE care.

Here are a few things God has done at Mercy this year because of your support...

- **Expanded service area to include residents of 76115** - The clinic added 70 people living in 76115 immediately
- **Opened more clinical shifts to care for more people.** Mercy Clinic is now open four days per week, using a mix of day and evening hours, to support our working patients.
- **Held our first Mercy en la Comunidad** - a Spring festival in Capps Park with our community partners and entertainment, taking Mercy Clinic's services to the community and gaining new patients from our neighborhood.
- **Provided cancer screenings and vaccines to men, women, and children.** Thanks to our partners at Walgreens, UNT Health Science Center, Direct Relief, Cook Children's and Moncrief Cancer Center.
- **Completed over 2,800 patient encounters** - serving as a medical home and offering in house specialty care in OBGYN, dermatology, endodontic dental care, and limited cardiology services.
- **Raised over \$300,000 through Special Events** - Many of you joined us at our annual Shoot for Mercy and Dinner for Mercy events. Thank you!
- **Expanded Clinica de Mujeres** - including education and exercise classes for our female patients.
- **Hired new staff** - Rosa Mondalvo, Mercy's Patient Care Coordinator, and Meredith Yount, P.A., Mercy's Associate Medical Director
- **Grew our volunteer base** - Added three additional Board Members, and numerous dentists, PA's, pharmacists and dental hygienists

This is not possible without your support. Mercy Clinic is 100% funded by donors like you. Currently, Mercy Clinic is reaching about 1% of the total number of uninsured adults in the City of Fort Worth. God calls us to do more. We need your continued support to transform the lives of those in need in Fort Worth.

As we approach the close of this calendar year, please consider making a financial gift to Mercy Clinic. Also consider signing up online to make a monthly gift of support. Your partnership is essential, especially in our city where Mercy Clinic is an important medical safety net.

Also, I'd like to invite you to visit Mercy Clinic for a tour to see your gift at work!

I wish you a joy-filled Christmas celebration.

Aly Layman, Executive Director

Your gift can do so much at Mercy...

\$10,000 – Provides for 50 well-woman visits that include comprehensive diagnostic lab work and services.

\$5,000 – Provides for 5 months of free pharmaceuticals for our patients. The retail value of these medications is \$28,000. This is a great return on investment!

\$2,500 – Provides for 35 patients to visit with a doctor at Mercy Clinic. We have a patient waiting list, please help us meet the community's needs.

\$1,000 – Provides for one month of Mercy Clinic's lab expenses – including glucose checks and pap smears. Because of our volunteer labor force, we are able to do more with just a little investment.

\$500 – Provides treatment for one year for a Mercy Clinic dental patient. Our volunteer dentists are amazing and help us keep our costs to deliver care low.

\$250 – Provides for the cost of dozens of sandwiches for our volunteers for one week. What a gift from God these volunteer angels are, the least we can do is feed them!

\$100 – Provides one diabetic patient with routine testing and supplies for a year.
